

Interview Recording Worksheet

Remember: It is not just about what this person says... Think about how he/she enters the room, how he/she answers questions, and try to think about other questions you might want to ask as he/she answers the ones we have already created! Please take notes then afterwards check off what topics they belong in (there may be more than one). Then fill out the rubric before you hand this in at the end of class.

As a reminder, the topics are:

- Adaptability
- Everyone is human / everyone is normal
- Being faced with obstacles and overcoming them despite difficulty
